

How to access and download EPUB Books from the Jerseyville Library Website- Onto your Nook

When doing these transfers- A personal computer is needed.

The First Step is to download the software compatible to download eBooks from your computer to your Nook. To do this, you must first:

❖ Go to the Jerseyville Public Library website at: www.jerseyvillelibrary.org

❖ About a fourth of the way down, there is a link for the *Overdrive* website, click on this link:

❖ In the top right hand corner, go to the tab that says *Sign In*.

❖ Once under this tab, choose the link for *Jerseyville Public Library*.

❖ Once you have selected our library, type in your barcode on the back of your library patron card, and your PIN number. (If you cannot remember your PIN number, or have yet to make one, please call the library)

❖ This will then direct you to your account page:

Once you have done this, you may begin to search, add holds, return books, and checkout books to download onto your computer. Below are the steps for doing this. Before you are able to download, you must first download the software which enables you to download the books, and transfer them to your Nook.

How to Download Adobe Digital Editions Software:

- ❖ After logging in to Overdrive, scroll down to the bottom of your account page.
- ❖ On the left, there is a section called **Digital Software**.
- ❖ Click on the tab called **Adobe Digital Editions**

- ❖ Once on the page, click where it says **“To download Adobe® Digital Editions, click here.”**

- ❖ Click the link in the top right hand corner.

- ❖ It will then bring you to this page, if you have a Mac computer, click the *Mac* link. If you have a *Windows* computer, click the *Windows* link.

- ❖ After clicking your desired link, it will pop up this window. Click Save File.

- ❖ Once it has finished downloading, double click the link

- ❖ After going through the steps to download, the ending result for Adobe should look like this:

How to Authorize your Adobe Editions

- ❖ Before you start to download your Ebooks from Overdrive, you must first have an Adobe ID You can do this with the following steps. If you already have an ID, you can log in here as well.

- ❖ If you have an Adobe ID, you can sign in here. If you do not yet have one, click the “Create an Adobe ID” link.

- ❖ This will then bring up a webpage which will enable you to make your ID. Once you have entered your information, click “Create”

- ❖ After you have created your ID, go back to the login pop-up (which should still be up from before), and type in your new ID you have just made. Click Authorize.

- ❖ After it has been authorized, click OK. Your computer is now ready to download books onto!

How to Search for an Ebook:

On the Nook the only eBooks that are compatible are the **Adobe EPUB**, **Open EPUB** and also **Adobe PDF** books. You may search for books by title, author, subject, and so on, however by doing this it gives you a list of every single eBook of that category, not just PDF or EPUB books. In opinion, it is easier to first limit the search to only PDF or EPUB, therefore you won't find a book you want, only to see it is in the wrong format.

1. After signing in and accessing your account page, click on the "Advanced Search" link.

2. From here you can choose whether to look at Adobe EPUB, Adobe PDF, and Open EPUB books.

3. This will then lead you to every single EPUB or PDF book in the Overdrive system. Unfortunately with the growing demand for these electronic books, many of them are currently "checked out", and will require you to put a hold on them. If you look in the bottom right corner of the book you want, and it says *Place a Hold*, then that book is already checked out, and you would have to put your name on the waiting list (just as you would at our library.)

****As a suggestion, it is a good idea to find any book that is available and download it, just so that you can have the practice of downloading and accessing an eBook.****

4. Once you have found an available book, click the link which says *Add To Cart*

5. Once you are in your Cart, you may continue looking for books, or continue to *checkout* your item. (Also, you may only check out 5 books at a time.)

6. On this page, you may select if you would like to have your book(s) **for 7 days, or 14 days.** (After this amount of days, your book will automatically be taken off your device.) After selecting your lending period, click **Confirm Checkout.**

Check Out

Please review and confirm the selections and, if desired, change the lending period(s) before proceeding with check out.

Note that in order to use digital media, you must download and install the appropriate digital software before downloading the title to your machine.

The 6th Target

Women's Murder Club Series, Book 6

Lending period: 14 day checkout

7 day checkout

14 day checkout

[eBook-compatible computers & devices](#)

[remove](#)

Important notes:

- You may check out a maximum of 5 titles at one time
- You currently have 1 title(s) checked out
- You will have 3 title(s) remaining after checking out the selected title(s)

Confirm check out

7. From here, you will then click the *Download* button, directly beneath the book preview. This will then bring up a pop up window, asking what you would like to do with the book. Click *OK* to this.

Download

The following title(s) are now available for download:

Explosive Eighteen
Stephanie Plum Series, Book 18
Adobe EPUB eBook (2222 kb)

Checked out on: Oct 20, 2012
Expires on: Oct 27, 2012

Download

8. Doing this will automatically download your book into the Adobe Editions software. Once it has successfully downloaded, it should be available to view on your main page. The first thing you see once the book has been downloaded will be the “open book.” Click *Library* to get back to the main page.

9. Once this is all finished, you will need to plug your nook into your computer. (The USB cable should have been provided with purchase of your Nook)

10. After plugging in your Nook, you should be able to see a *media* link under *Devices* on the top left.

11. If this link is present, you will be using the “**click & drag**” method. Click on the book which you desire to put onto your device, and drag it over to the *Media* or *Nook* link.

12. After doing this, the book should successfully be downloaded onto your Nook. It may not transfer immediately however, so if it is not there at first, do not panic! If you wait about 5 minutes, your book should appear, along with your other titles on your Nook.

13. Sit back, relax, and enjoy your eBook! 😊

How to return your eBooks onto Overdrive:

If you finish your eBook early, and wish to return it so that you may download another title, here is your simple guide to do so.

1. Simply open your Adobe Digital Editions software, and go to the book you wish to return

2. Right Click on your book, and click the link “Return Borrowed Item”

3. It will ask you if you are sure you want to return the selected book. Click **Return**. This will then take the book off your Adobe Digital Editions and your Nook.
